BUILDING VISION

**Dedicated, responsive service from
concept to completion**

ABOUT J.F. KIELY CONSTRUCTION CO.

Over the past six decades, we've built the Kiely Family of Companies to focus on customer success and design-build capabilities. We rely on a culture of teamwork, technological innovation and high ethical standards to deliver successful solutions to our customers.

J.F. Kiely Construction Co. customers share their vision with us, and we build it. This commitment demands an exceptional design-build philosophy and endless capabilities.

We perform work for publicly traded utility companies, energy companies, municipalities, and private entities, and employ hundreds of team members in multiple locations throughout the Northeast.

We invite you to explore the benefits of a business relationship with J.F. Kiely Construction Co. As our customer, you can expect individual attention, reliable service, open lines of communication, cost-effective solutions and strict adherence to your project schedule.

THE KNOWLEDGE, EXPERIENCE AND SOLUTIONS YOU NEED

At J.F. Kiely Construction Co. job site safety, customer service, and high quality of work define who we are.

Projects delivered on time, on budget and on expectation require a unique breed of problem solvers. Kiely team members know this and focus on customer success. Understanding each customer's company and project specifications prior to the start of the project is the foundation to providing unparalleled service.

Because the work we do affects everyone's quality of life, J.F. Kiely Construction Co. is focused on turn-key projects and long-term thinking, actively building a lasting legacy for our customers and communities.

A CULTURE DESIGNED TO DELIVER ENDURING RESULTS

A unique culture and approach tailored to each customer's specifications

Our team members are an elite group of humble, behind-the-scenes professionals who others can depend on. We stand for service and leaving things better than how we found them.

Our dedicated team members are committed to:

- ▶ Enhancing our customer's stakeholder value and exceeding their expectations
- ▶ Responding to each project's unique requirements, rather than employing a cookie-cutter approach
- ▶ Being available, responsive, honest and competent
- ▶ Building, improving, and delivering creative solutions
- ▶ Performing reliable service with vision, innovation, integrity and excellence
- ▶ Maintaining and focusing on a safe environment that adheres to strict compliance
- ▶ Compliance with Federal, State, and Local Safety and Health Regulations
- ▶ Recognizing and promoting a high level of accountability

OUR COMMITMENT TO SAFETY

J.F. Kiely Construction Co. maintains a strong commitment to safety for our stakeholders. Stakeholders are comprised of our team members, our customers, and our communities. Our management and field team members participate in continuous training to safeguard and sustain safe work environments, and we provide tens of thousands of hours of various safety training annually to all of our team members to ensure each step of every project maintains our responsibility to safety. Ongoing training and state-of-the-art equipment enable us to work safely and efficiently with our qualified workforce.

Our safety goal is simple: team members need to return home at the end of the day in the same or better condition than when they started. We strive for zero incidents to our stakeholders, and believe that every team member is entitled to a safe and healthful place to work. New and seasoned team members alike are provided with the necessary knowledge and equipment with which to do their job in an environment where they can be devoted to work without undue danger.

OPERATOR QUALIFICATION

Flawless quality control, strict compliance and professionalism

The Operator Qualification (OQ) Rule is part of the Department of Transportation 49 CFR 192, under the Office of Pipeline Safety. This rule requires natural gas pipeline operators to develop, implement, and maintain a written qualification program for individuals performing covered tasks on natural gas pipeline facilities.

At J.F. Kiely Construction Co., we are committed to and provide a trained, qualified workforce, maintaining records for each team member performing specific covered tasks. Our team members are OQ trained and evaluated by our qualified training staff. As a member of both the Midwest Energy Association (MEA) and the Northeast Gas Association (NGA), we are able to stay current with all Operator Qualification regulatory updates and changes.

In addition to the required OQ training, our team members receive training on OSHA 10, HAZwoper, Respirator, Asbestos, Excavation & Trench Safety, and Confined Space. Routine safety meetings and tool box talks ensure each employee is working in a safe and compliant manner.

THE KIELY FAMILY OF COMPANIES

Keeping infrastructure strong, secure and connected

The Kiely Family of Companies, established in 1952 by John F. Kiely Sr., contributes to something far greater than itself, as each company's unique capabilities enhance the others, making us greater than the sum of our parts.

Our services are organized into three business units: Civil, Development, and Equipment. Each are comprised of multiple stand-alone companies that work together to offer an exceptional design-build experience.

We serve the needs of our customers, offering a diversified list of services, such as engineering, utility construction, heavy highway, hot mix asphalt production, equipment sales and leasing, recycling services, and residential and commercial building and leasing.

When you choose the Kiely Family of Companies, you can be confident that you've made the right decision. No one knows the terrain, the people in the community, or the project, better than us.
